About Company

Swiftmed International Pvt. Ltd. is a rapidly growing Pharmaceuticals and Nutraceuticals company based in India with a focus on delivering quality medicines to patients worldwide. Our mission is to provide patients with affordable and highest quality medicines to help meet their healthcare needs.

Our Mission

Our mission is to be a quality conscious organization with strong ethical values to provide superior quality pharmaceutical and nutraceutical products across the globe that improves lives of the patients.

Our Values

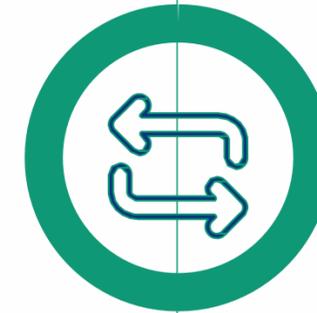

Integrity

- Upholding honesty, ethics, and transparency in all interactions.
- Prioritizing company values and professionalism over personal gain.
- Speaking out against injustice and demonstrating conviction and courage in standing up for beliefs.

Quality

- Manufacturing the safest formulations in various dosage forms.
- Continuously upgrading manufacturing facilities to meet international standards.
- Meeting customer needs through timely deliveries and high-quality products.
- Providing excellent service to customers.

Commitment

- Demonstrating compassion and sensitivity towards all stakeholders.
- Fostering long-term partnerships based on mutual benefit and accountability.
- Exhibiting unwavering determination to achieve results.
- Taking full responsibility for outcomes and striving to surpass challenging goals with integrity.

STATE-OF-THE-ART QUALITY CONTROL, MICROBIOLOGY & FND BLOCK

Our dedicated Quality Block at Rajat Care is meticulously designed to ensure the highest standards of product integrity and safety. The Quality Control (QC) area, Microbiology testing areas & FND area are carefully segregated from the manufacturing zones, providing a controlled environment that minimizes contamination risks and upholds strict regulatory compliance.

The Quality Block is spacious, offering ample working areas and adequate storage for control samples, chemicals, and records.

Our site features a state-of-the-art Quality Control Laboratory, equipped with sophisticated analytical instruments and staffed by highly qualified analysts. The laboratory conducts a wide range of analyses, including chemical, microbiological, and instrumental testing, ensuring that every product meets our stringent quality standards.

Our F&D department is continuously focused on improving the quality of formulations and creating innovative dosage forms. Additionally, we have an F&D line from ACG that mirrors our production machinery, ensuring seamless product transfer and consistency in quality.
